FRIDAY, JULY 12th, 1935

Number 17

Genealogical Convention July 21st.

The Stake Genealogical Convention to be held in Stirling Sunday next, July 21st, will be featured by actual and valuable experiences and instructions in Genealogical and Research Work, and everyone interested, not only committee members, but everyone else should plan to attend.

The meetings will be held at Stirling, and will commence at 9 a.m. Sunday morning, with a meeting of the Stake and Ward Officers and Committee-men, when a Round Table discussion of selected topics will be held.

A public meeting will be held at 10 a.m. when the reply to the Questionnaire will be given by a member of the Stake Presidency, and this will be followed by a Demonstration of a Stake Union Meeting conducted by the visiting member of the Committee, showing activity in the following departments:

1. Classwork Department.
2. Temple Work Department.
3. Home Teaching Department.

Another public meeting will be held at 2 p.m., when a talk on Temple Marriage and Temple Service will be given by the Stake President or his delegate. Stories of successful research by a young lady or young man and stories of successful research by the visiting delegates or delegates.

In the evening a pageant or concert will be given. Music for the Convention will be furnished by the Stirling Ward and all interested are invited to the Convention.

Either A. William Lund or Geo. W. Kirby will be the visitor, or here, the other member attending in Lethbridge on the same day.

NEWS NOTES

Howard Melchin was in charge at the local Safeway Store while P. D. Bennett was away on his holiday.

Theodore Elert started steeplechasing the new home of R. W. Tollestrup on Monday of this week. Rapid progress has been made on this home.

O. H. Snow, and wife and daughter are holidaying in Waterton Park for a couple of weeks, having started their holiday on Thursday this week.

Fairly heavy showers over the week-end fell in adjacent districts, but they completely missed Raymond and immediate district. However, we are still hopeful.

Word was received Monday night that J. G. Allred was operated upon July 8, stood the operation well, and surprised the doctors in his physical condition, every hope being held out for his recovery.

Showers of varying intensity have fallen recently every day for the past two weeks and have kept things from burning up. Some say they do no good but we are of the opinion that every drop does some good, and holds off the damaging heat just a little longer.

"Tony" Johnson, now of Taber, who used to live here 25 years ago, was in town renewing acquaintances Monday on his way home from a visit to Cardston. He states that dry land crops in the Taber district are farther gone than they are here, and if any crop is harvested it will be a light one.

SECOND WARD NEXT SUNDAY EVENING

D. H. Eiton, K. C., and Mayor of Lethbridge, will be the speaker at the Raymond Second Ward Sacrament services Sunday evening next speaking on the subject, "The International Outlook." A special invitation is extended to the young people to be present and hear this vital and timely talk.

A nice musical program has been arranged and an enjoyable time is promised all who attend. Meeting commences at 7 p.m.

JUNE MOISTURE REPORT

Mr. Burnett, who takes the moisture readings, has submitted the following report for June:

June 2nd, .14; June 3rd, .06; June 5th, .14; June 13th, .03; June 15th, .05; June 16th, .01; June 17th, .42; June 21st, .15; June 30th, .02.

Total rainfall for June 1.02 against 4.27 for June of 1934.

July rainfall to date has been .26 inches.

NO ELECTION DATE YET

No Election date has been announced in Alberta as yet, the floods in Northern Alberta delaying the setting of a definite date. There are 150 candidates now in the field to contest 63 seats, and Social Credit will contest every seat. Even if announced today, notice could not take place before August 12, so that it begins to look as though we will be voting right in the midst of harvest. The tentative date for the Dominion election is Sept. 23rd.

CRIME EXPERT USED FOR "G-MEN"

So that no technical error could creep into sequences of "G Men," the first National picture showing at the Capitol Theatre next week, the Company engaged Frank B. Compert, criminologist of the Los Angeles county sheriff's office, one of the county's leading experts. James Cagney has the stellar role in the picture, which depicts the U. S. Department of Justice men's battle against crime.

NEWS NOTES

Solo Low of Stirling was a Raymond visitor Tuesday evening.

Preserving fruits are coming on now and strawberries will be finished within a few days.

The basement on Lee Brewerton's house is finished, and the frame up now for the siding and finishing to commence.

Lou King was in Calgary this week-end after a new Ford Ton and a half truck for the Canadian Sugar Factories, Ltd.

Flower gardens are a riot of bloom these days. Peonies, roses, pansies, etc., are at their best and sweet peas will be blooming heavily in a few days. Some of the home grounds about Raymond are certainly beautiful with the well-kept lawns and flower gardens.

Grade IX and X Results In High School

NOTE: The following Raymond high school students have been successful in the final examination in the subject indicated. The marks in each case have been sent in to the Department of Education, and will be forwarded to each student by mail. Students writing Departmental Examinations will receive their marks from the Department of Education. The names in the following lists are arranged in alphabetical order:

NEWS NOTES

L. D. King is spending the week in Calgary attending the Stampede there.

L. L. Pack has purchased a new Ford V8 Coupe through King Motors. A pretty green car, of which Lambert may well be proud.

Mrs. A. R. Davidson of Drumheller, sister of Mrs. Roscoe Larson, is here visiting with relatives and friends.

Mr. and Mrs. Ernie Organ and family left Saturday on a motor trip which will include visits to Calgary and points north. They expect to be gone about one week.

The Raymond First Ward Mutual furnished the Mutual Conjoint program for the Lethbridge Ward last Sunday evening. The Raymond M. I. A. Chorus was a feature of the program.

Word has been received by the family here from Allan Weaver, who is now in Regina that he was married in that city on July 3rd, and thereby joined the silent majority. We wish him and his wife much joy and happiness in their journey through life.

The Dominion Parliament was prorogued last Friday afternoon after having been in session since early last winter. This ended the sixth and last session of the seventeenth parliament of Canada, and before another session takes place, Dominion election will have taken place. Naturally, the question is, "who will be Canada's next premier."

Helen Wills Mood, possibly the world's best tennis player, won a prize of \$5000 at Wimbledon last week when she defeated Helen Jacobs, the women's champion, in five sets straight to win the match.

Mrs. H. M. Holmes was hostess on Friday at her farm home to the "Straight Eight." The ladies spent the afternoon sewing, the discussion for the day being, "Hasty Tasty Dishes." Mrs. Tollestrup and Mrs. Miller entertained at the piano and Mrs. Holmes gave several vocal solos. Special guests were Mrs. and Miss Cairns, mother and sister of Mrs. J. T. Simpson, who are visiting here from Scotland. Lunch was served by the hostess, the guests enjoying very much the lovely strawberry preserves raised on the farm.

Kelly Nemeth, Jack Nilsson, Yasuo O'Shiro, Mary Peterson, Erma Rasmussen, Guinevere Redd, William Rodeback, Leonard Rolfson, Marguerite Romeril, Ellsworth Scoville, Mahlon Smith, Elsie Sudo, Naonuchi Sugimoto, Shirley Taylor, Jane Walker, Donna Wall, Gerald Watson, Herbert Wilde, Robert Zobel.

GRADE VIII PROMOTIONS

M. T. King, Teacher.
Byron Anderson, David Anderson, Marcel Ancca, Molly Bennett, Margaret Brandley, Louisa Burnett, Guy Christman, Garth Evans, Jean Grey, Tucker Hironaka, Verda Larson, Bill Meheew, Gerald Melchin, Shirley Mendenhall, Hazel McBride, Eugene Nilsson, Bert Piegrass, Leland Powelson, Sydney Romeril, Charles Romeril, Frances Selman, Joe Takahashi, Russell West, Frank Wight, Wallace Wilde, Teddy Witbeck, Robert Wood.

C. R. Wing and family returned the first part of the week from a few days holiday trip.

Willard Books of Cardston, Fuller Brush Man was in town the first part of the week.

Miss Cary Jensen is holidaying from the Mercantile Office at present. Vacation days started the first of the week.

Mr. and Mrs. Lynn Wall and family of Wenatchee Wash, is visiting here with relatives for a few days.

Brushes by Fuller have always been the best. Free samples and reasonable prices. Write Box 203 Raymond.

Quite a number of Rotarians will be at Many Glaciers Saturday and Sunday for the joint Montana Alberta meeting.

Born to Mr. and Mrs. S. B. Smith, at St. Michael's Hospital Lethbridge, on Wednesday last, a baby boy. Mother and son are doing nicely.

Mr. and Mrs. James Hamling and Mr. and Mrs. Kimball Anderson of Tyrell's Lake were Raymond visitors Wednesday evening of this week.

R. B. Bennett had definitely announced that he will lead the Dominion Conservative party in the next campaign and as long as his health permits. His announcement brought widespread joy to the Conservative ranks across Canada.

James H. Walker returned on Friday from the U.F.A. Caucus at Edmonton. He reports a very busy time, with plenty to talk about. Asked as to the election date he stated it was left with Premier Reid to announce the date, and he thought it would be announced within a week's time.

The weather continues dry and warm. Grain is badly in need of moisture. Beets and hay on the irrigated tracts are doing pretty well, but pastures on hills and dry land are getting quite brown and burned. A good soaking rain would mean untold dollars to the man on the dry land in Southern Alberta.

The Women's Institute of Raymond were the guests Thursday afternoon of the members of the New Dayton Women's Institute at a social and tea held in New Dayton. Three cars went from here with members of the Raymond Club and all report a very enjoyable afternoon.

The Lethbridge Herald Jubilee Edition came in the mails Thursday night, and those receiving it, should cherish it as a history of early days in Southern Alberta. We congratulate the Herald on the completeness and labor entailed in this edition. Those who did not receive one should endeavor to procure one if they are interested in the development of our district.

Floods, cyclones and earthquakes have been having a great time the past week, it being reported that 3,000 were drowned in China when flood waters swept out the town of Yeung Cheng. In northern Alberta to, at Peace River and Lesser Slave Lake flood waters have the towns flooded, streets being entirely covered with water. We could use a little of their surplus here to very good advantage.

CAMPAIGNS ARE COMING

We will soon be in the midst of our Provincial election campaign, and likely before this appears in print the date of same will have been announced. As we think back over past campaigns for the past 25 years or so, one remembers with regret the mud slinging, the veiled insults, and the fabrications that have been the ammunition of all of them. Then too, the pre-election promises including anything and everything the electors asked up to election time; then the loser going down with the promises still intact, and the winner looking for reasons for not fulfilling them, or completely ignoring the people to whom the pledges were made, and who put him in office. The latter was usually the course taken.

We often hear the statement "Figures don't lie," and this is true if one has and gives all of the figures. But as we have before us a great many of the figures of the Provincial Government for past years, and almost anyone who could add and subtract could make any kind of a story they wished. If they ferreted out the figures and only used what they wanted. These same figures four years ago proved the extravagance of the U.F.A. for Liberal speakers, and the sound economy of the Government for the party supporters. So, what are figures unless you can see both sides of the stories. In the present platform addresses we hear continually of the big

shots and the immense profits of the picture, unless they are making. To date we could be like the Indian legend have seen no concrete figures of all saying something good about the dead was. The story that these profits are so huge, goes that in a certain tribe if one takes cost as against selling price, with no allowance for overhead interest on investment, depreciation, etc., there is no question but what these sweeping statements could be substantiated. BUT and we emphasize this BUT if speakers expect to make any lasting impressions with their promises, and they should present the entire picture, and show us exactly how this terrific spread comes, and where it can be paired down. So much for that. People are pretty well able to think for themselves if speakers will forebear the usual system of trying to stampede them into believing what the speaker wants them to believe, rather than presenting the facts and letting people think for themselves. We have a few speakers who have been content to do this. They seldom bring down the house with applause but they win the respect of the people, because in presenting the facts without mud slinging and lambasting their opponents, they show that they give the people credit for having at least average intelligence, and that is appreciated by the masses.

Then there is the modern psychology that many speakers play to the limit. This is a powerful influence, and we have many public men who are past masters at this. They get a crowd together, and tell them black is white, and because of this human weakness they have their audiences believing it. In the past all of these tactics have been overplayed, and repeatedly have won the day. A. L. L. in the present year bring forth in the way of campaign, and argument.

It would be to the credit of any party that would start out with the determination to tell the truth and leave their opponents and opponents' views out

of the picture, unless they are making. To date we could be like the Indian legend have seen no concrete figures of all saying something good about the dead was. The story that these profits are so huge, goes that in a certain tribe if one takes cost as against selling price, with no allowance for overhead interest on investment, depreciation, etc., there is no question but what these sweeping statements could be substantiated. OVEN-FRESH FLAVOR PERFECT

EXPERIMENTAL STATION, LETHBRIDGE

WEEKLY LETTER

BEES

This is the time of the year when honey production is in full swing and while the early season prospects were discouraging the beekeepers at the station are again optimistic. The average date for beginning of the main flow for a number of years has been June 15th to 20th, but this year the flow did not start till July 1st, but then the bees decided that unemployment should be ended and have been working steadily since. The cold dry weather was responsible for lack of nectar flow but this has been changed to favourable conditions.

With the busy honey season comes the swarm season which usually begins about the first week in July and continues from three to six weeks. The beekeepers' problem is to prevent swarming and this can most readily be done by giving lots of room by adding more supers for brood and honey. The nectar as it is first brought into the hive loses about 25 per cent in weight through evaporation during the ripening process and sufficient room must be available for the raw nectar so that no crowding will occur.

It is often advisable to place frames of emerging brood in the honey supers and to place new frames with drawn comb in the brood chamber. An active queen should be laying over 2000 eggs daily at this season of the year and as each egg is normally laid in a separate cell it is essential that empty cells be available. It was of considerable interest to your author to know that during the height of egg production

season a queen bee will lay over 24 times her own weight in eggs every 24 hours. In order to provide energy and material for this remarkable production the worker bees supply her with partly predigested food.

A number of beekeepers who use package bees have been complaining about lack of strength in their colonies, these having only 5 or 6 frames of brood where they should have 8. This appears to be partly due to lack of vitality in the queen but at this station no such trouble is experienced under the method of handling employed. This method which has been successfully used for a number of years has been briefly outlined by Mr. Luther under his procedure for this year: About June 1st there were about five frames of brood in each of the package bee hives and the bees were active and crossed with some indication of a desire to build new queen cells for superseding. The brood chamber with the brood and queen was therefore removed to a new base adjacent to the old but at right angles to it. One frame of brood with the queen and adhering bees was immediately placed in a new brood chamber full of drawn comb on the old base. About twelve hours later a young laying queen was introduced into the original brood chamber (on the new base) and the division of the hive was completed. By the time the main honey flow is under way the two chambers will be practically up to full strength and honey supers can be put on as needed.

About the middle of July the two colonies can be recombined and the one queen destroyed and the one queen and two frames of brood can be moved

BLOSSOM END ROT OF TOMATOES AND ITS RELATION TO FERTILIZER PRACTICE

One of the most common and serious sources of loss to the grower of tomatoes, both under glass and in the field, is the disorder known as blossom end rot, dry rot or blossom end rot. The affected tissues cease to grow and turn first brown then black with the spot flattened or shrunken. The losses may be moderate, but in severe cases practically an entire crop may be ruined.

This trouble is not due to any organism but is caused by faulty growing conditions. During the progress of studies carried on in the horticultural greenhouses at the Central Experimental Farm, Ottawa, it was observed that nutrition or the plant food supply had a marked effect on the occurrence of blossom end rot.

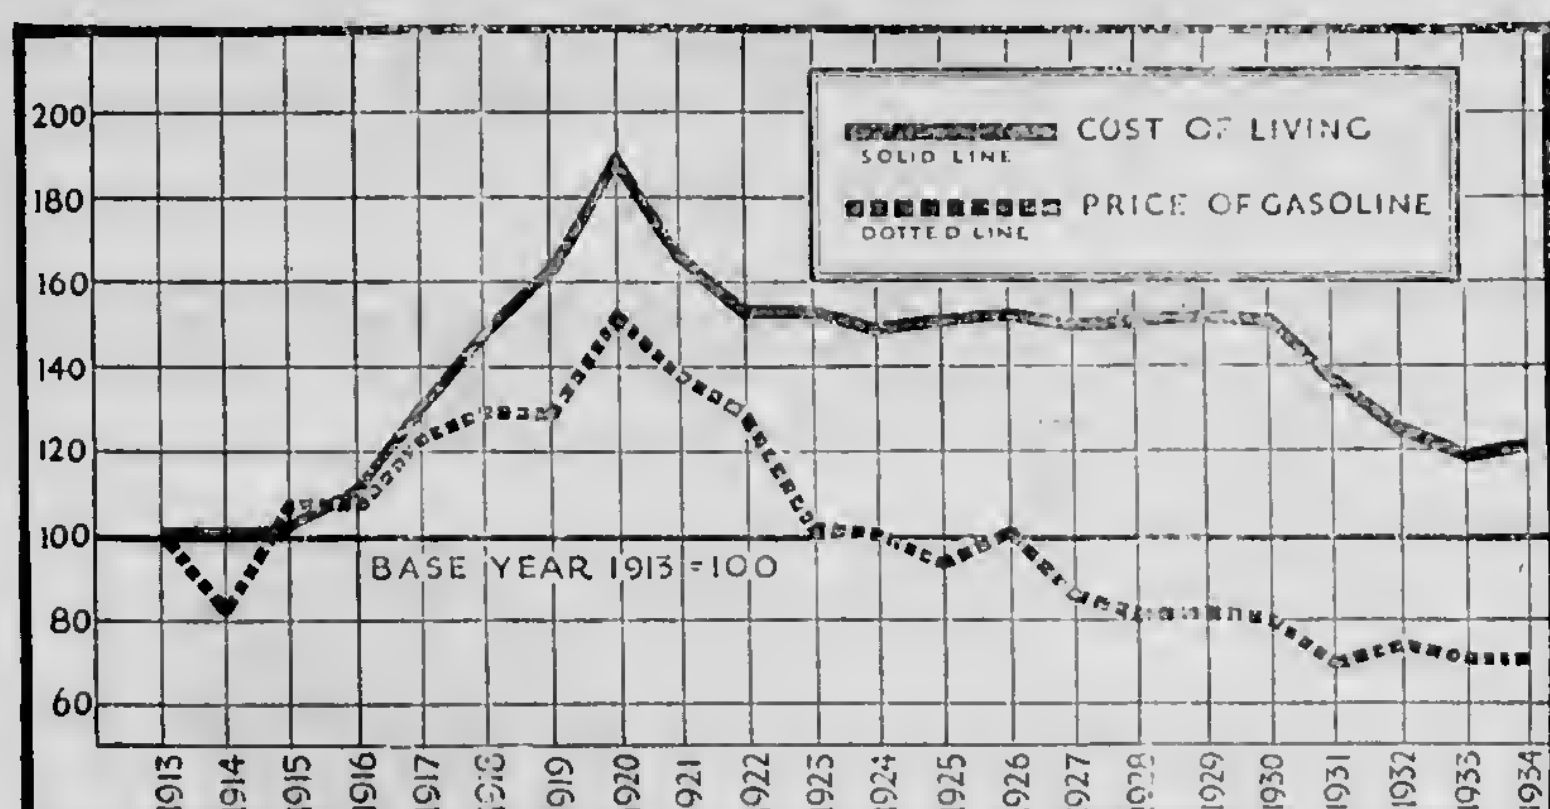

Care should be taken to avoid cultural or fertilizer treatments that promote plant growth too rapidly. Too heavy applications of manure or fertilizer, especially nitrogen, bring about too rapid and luxurious top growth and increase susceptibility to this disorder. Too rapid growth should be especially avoided on light soils or where moisture is apt to be a limiting factor. In the greenhouse serious loss is more apt to occur during the winter months, when the days are short, and special care must be taken then not to force growth by heavy feeding of manures or fertilizers. Too high greenhouse temperatures also tend to increase this disorder.

It has been found that more slowly available organic fertilizers such as tankage or blood meal are less likely to encourage this trouble than quickly acting nitrogenous fertilizers such as nitrate of soda or sulphate of ammonia.

H. Hill,

Central Exp. S. n.
Ottawa.

to a new location for making increase if it is desired to winter the bees.

The cost of living, which reached its peak in 1920, has declined; but on the 1913 basis it is still much higher than the price of gasoline. In 1934 the cost of living was 20.7 per cent. higher but the price of gasoline was 28.4 per cent. lower than in 1913. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

LIVING COSTS MORE BUT GASOLINE COSTS LESS

THE cost of living in Canada in 1934 was approximately 21 per cent. higher and the price of gasoline 28 per cent. lower than in 1913. The price of gasoline never rose to as high a peak as did the cost of living. Since 1920 gasoline prices have declined almost continuously to the present low level.

Imperial Oil has always sought for economical ways of doing business and has always passed on to the consumer the benefits of such economies. Imperial Oil operates on a very small profit and in 1934 earned an average of slightly more than one-half of one cent per gallon on gasoline.

Not only is gasoline cheaper than ever—it is better than ever. Imperial Oil research laboratories played a leading part in developing fuels for modern motors. Imperial gasoline of 1935 is a far better gasoline than that of 1913 yet it sells at a price considerably lower.

IMPERIAL OIL LIMITED

YOU CAN'T STOP STOKING A STEAM ENGINE -- SAID WRIGLEY

Interviewed, and asked to what he attributed his phenomenal success, the late Mr. Wrigley, of chewing gum fame, replied, "To the consistent advertising of a good product."

"But," asked the reporter, "having captured practically the entire market, why continue to spend vast sums annually in advertising?"

Wrigley's reply was illuminating.

Once having raised steam in an engine, he stated, it requires continuous stoking to keep it up. Advertising stokes up business and keeps it running on a full head of steam.

This applies to YOUR business, too. Don't make a secret of your product. Tell people about it. Tell them what it does. Tell them its advantages. Tell them where to get it. Tell them through the Press and keep on telling them.

Reithman and Smith have With the fishing season open, the contract for decorating and the stories of big catches, and painting the inside of the Pub- the whopper that got away lie School and Vern Henry the are going the rounds again.

Stirling and Raymond played in the office Saturday morning a league fixture here in Base- with a basket of fine large ball Wednesday night with a strawberries off her home gar- score of 16-17 in favor of Stirl- den vines. She stated she had ing. One of the players sug- gested that when it was report- ed to state that they played and she wanted us to see and basketball on a baseball diamond tell the world of what Raymond hence the big score. Probably could do. They were not only that's "miff" sed. large but a very fine flavor.

CROP REPORT

GENERAL

Rainfall over the prair- vines has been less general during the past week and the lack of moisture is causing some anxiety in southwestern Saskatchewan and southern Alberta. Otherwise crop conditions generally are favourable. Higher temperatures have promoted more rapid growth and in Manitoba about 40% of the wheat is in shotblade. Grass-hoppers are fairly numerous in some districts but there has been no serious damage from any source to date. In Quebec crops generally have been improved by the warm weather of the past ten days and on the whole are in good condition. In Ontario crops continue to show satisfactory growth and present prospects are for heavy yields. In the Maritime provinces crops on the whole promise well but warm dry weather is needed to stimulate growth. In British Columbia growing conditions generally are favorable on the mainland but are not so favorable on Vancouver Island owing to the lack of moisture in May.

TEN FINE RULES TO READ AND FOLLOW

Posted in an Ontario drug store is the following set of rules for store employees, but the cover a pretty good line of conduct for any employee anywhere.

1. Don't lie. It wastes my time and ours. I'm sure to catch you in the end—and that is the wrong end.
 2. Watch your work, not the clock. A long day's work makes a long day short, and a short day's work makes my face long.
 3. Give me more than I expect and I will give you more than you expect.
 4. You owe so much to yourself you can't afford to owe any one else. Keep out of debt—or keep out of my shop.
 5. Dishonesty is never an accident. Remember that.
 6. Mind your own business and in time you'll have a business of your own to mind.
 7. Don't do anything here which hurts your self respect.
 8. It's none of my business what you do at night—but if dissipation affects what you do the next day, and you do half as much as what I expect you'll last half as long as you hoped.
 9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet to my vanity, but one for my dollars.
- Don't kick if I kick. If you're worthwhile correcting, you're worthwhile keeping. — Exchange.

It cost the province of Saskatchewan \$21,000 to retail tickets to send the unemployed to their homes and relief camps after the gathering there. The amount was divided equally between the C. P. and the C. N. R.

A tragedy occurred at the Y. M. C. A. pool Tuesday when Jack McKillop, 10 was drowned there. The coroner's inquest pronounced death due to natural causes, the autopsy disclosing a greatly enlarged thymus gland.

If the difference in price spread that some speakers claim exist, we think they owe it to their friends and neighbors to let them know about it so they can begin to save money.

New profitable field. For interview write giving age and present occupation.

UTILITIES ENGINEERING INSTITUTE
Box 551, Beverly Hills, Calif.

NO DANGER: "I hope you are not afraid of microbes," apologized the paying-teller as he cashed the stenographer's check with soiled currency. "Don't worry," said the pert young thing, "a microbe would starve to death on my salary."

Purchase seldom-used spices in small packages, as it is more economical, since spices lose some of their flavor when exposed to the air.

Skins may be more easily removed from potatoes if a narrow strip around potato is peeled off before putting potatoes in to boil.

When serving lettuce, be sure that no water is on the leaves when French dressing is added. The water will spoil the dressing and the oil will not adhere to the lettuce. Do not put dressing on lettuce until it is to be served.

If a few slices of bacon are placed in the bottom of the pan in which hot meat loaf is baked it will give it a delicious flavor. A simple Russian dressing is made by adding two tablespoons of chili sauce and two tablespoons of finely chopped green peppers to one cup of mayonnaise.

Tit for Tat
An elderly woman chided her husband for not assisting her up the steps: "Henry you ain't as gallant as when I was a gal." "Nope," replied Henry, "and you ain't as buoyant as when I was a boy."

Practical preachers while not forgetting that a good life with faith is the best passport to heaven, are helping people to bear up and live abundantly here and now.
